

Plotting Base R Airquality Data

```
library(ggplot2)
ggplot(airquality) + geom_point(
  aes(x=Day, y=Ozone,
      color=as.factor(Month))) +
  labs(color="Month",
       title = "Scatterplot of Daily Mean Ozone By Month",
       x="Day of the Month",
       y="Mean Ozone")
```

```
## Warning: Removed 37 rows containing missing values (geom_point).
```
